STAR-EM: Call for project submissions (Due FEB 17)

STAR-EM (Summer Training and Research in Emergency Medicine) is a funded summer training program for undergraduate medical students at the University of Toronto who are completing their 2nd year. It is a ten-week program which seeks to cultivate future emergency medicine physicians and to support ongoing academic excellence within our department. Students participate in weekly half mornings that incorporates a research curriculum, topics in academic in emergency medicine, and group project discussions. Supervisors get a keen funded student dedicated full time to their academic project.

We are preparing for the 2023 STAR-EM program this summer and now accepting applications for supervisors. Please see the attached PDF for more details. Interested staff should submit a CV and complete the application form including a brief (<300 word) proposal and project timeline by **February 17th, 2023**. Student application invitations will be circulated mid-February

ED Learning Interest form

Our student learner form on our UHN EM Website is now available! If you have students looking for research or QI opportunities, please direct them to the form. We also had some students reach out regarding research opportunities. If you are looking for medical students to assist with your project, please email Konika.
